Education

B.Tech	Lakshmi Narain College of Technology, Bhopal, CSE	Nov 2022 – Present
	- CGPA: 9.05/10.0 Coursework: Data Structures, DBMS, OS	
12th	Christ Jyoti Sr. Sec. School, Singrauli	2022
	Percentage: 85.2	
10th	Christ Jyoti Sr. Sec. School, Singrauli	2020
	Percentage: 91.4	

Skills

- **Frontend:** HTML, CSS, JavaScript, React
- **Languages:** Java, JavaScript
- **Tools:** Git, GitHub (Pro tag), Postman, Redux Wordpress, Figma, Render, Chrome DevTools
- **Cyber Security And Web Vulnerability:** Burp Suite, TryHackMe
- **Frameworks and Libraries:** Bootstrap, SCSS, GSAP, SwiperJs, LocomotiveJs, Tailwind CSS, Flowbite
- **Soft Skills:** Creative, Teamwork, Problem-solving ability, Motivated, Attention to Detail

Experience

Open-Source Contribution - Family First

Under mentorship of Prajwal Bairagi (Senior Software Engineer)

[Github Repo](#)

Aug 2024 – Dec 2024

- Built a modular backend using **Clean Architecture** (Domain, Application, Infrastructure, Adapter layers), implementing secure **JWT** authentication with access/refresh tokens. Integrated **Google Cloud Storage** for optimized, compressed media uploads to enhance performance and storage efficiency.

Bluestock, Software Developer Engineer Intern

Bhopal, India (Remote)

July 2024 – Aug 2024

- Optimized and enhanced the Bluestock FinTech website by improving **web responsiveness**, implementing **lazy loading**, infinite scrolling, and ensuring cross-browser compatibility. Applied **SEO** best practices and integrated **Progressive Web App** (PWA) features for a seamless multi-device experience.

Projects

Sanrakshan

[Github Repo](#)

- Developed a **MERN** stack application for digitizing fire safety approvals with multi-level admin workflows, real-time progress tracking via **Socket.io**, and role-based dashboards. Integrated a complaint ledger with insurance verification to ensure compliance. Key features include document uploads, reference ID generation, and live status updates.

Moody Player

[Github Repo](#)

- Built Moody Player, a React-based music recommendation app that detects user mood in real time using **face-api.js** and recommends songs accordingly. Implemented admin-specific **CRUD operations** with role-based access control (RBAC), where admins can upload/manage songs via **Multer and ImageKit**.

Aurora | AI Chat Application with RAG Memory

[Live Link](#)

- Built a full-stack MERN application integrating **Google Gemini** for conversational AI, **WebSockets** for real-time streaming, and **Pinecone** vector database for long-term/short-term memory (**RAG**). Implemented secure JWT authentication, scalable REST APIs, and a responsive React frontend for smooth chat experiences.

Achievements

- Runner-up at **Web3Connect**, RGPV, Bhopal
- Finalist at **Codex**, Hackingly, P.I.E.T., Panipat
- Selected among **top 50 students** for **PwC** Cyber Security Launchpad Program 3.0
- Reached **Top 100** all over India at Reimagine Hackathon by Sheryians Coding School-[Ola](#) and [Nalgene](#).
- Elite Certificate in **Java Programming**, NPTEL
- **GATE** 2k25 Qualified in **DA**.

Certificates

- **PwC** - Cyber Security And Web Vulnerabilities, Prompt Engineering
- ReactJS - **Meta**; APIs - **Meta**;
- DSA in Java - **Sheriyans Coding School**, Bhopal
- MERN - **Academind** by Maximilian Schwarzmüller
